A. Reading Comprehension 閱讀測驗

Emma: Grace, have you heard about the new school start time?

Grace: No, what is it?

Emma: They changed it to 8:30 AM!

Grace: Wow, that's way later than before. What do you think of it?

Emma: I love it! Now I can finally get more sleep in the morning.

Grace: Yeah, me too. I always feel so tired and grumpy when we had to start at 7:30.

Emma: And I've noticed a change in my mood as well. I don't get mad or nervous easily in the mornings anymore.

Grace: That's great. Some students even said they come to school with a smile now instead of worrying about the early start.

Emma: Yeah, it seems like a win-win situation for everyone.

Grace: I agree. Maybe schools should consider this change all over the country.

Emma: Totally agree. Let's go tell our other friends about it.

Different animals have different eyes because they need them for various reasons. For example, snails can't see colors, but their eyes on stalks help them see all around to watch out for enemies. Owls have big tube-shaped eyes to get a lot of light, but they can't move their eyes. So, they need to turn their heads to see in the dark and find food.

People have eyes that are good for what we need. Even though our eyes are not very special, our big brains and good memories help us. We don't need special eyes because we have other abilities to help us survive. And we can enjoy things like going to a museum. Unlike a snail, we find joy in different activities because of our special abilities.
